I'm a passionate and results-driven Full Stack Developer and Machine Learning enthusiast. With a strong foundation in software development and a problem-solving mindset, I've earned recognition as a 6x Hackathon Winner, including the prestigious Smart India Hackathon (SIH) 2025 and 2024.

Technical Skills

Programming Languages: C, C++, Java, Python, JavaScript

Frameworks & Libraries: React.js, Tailwind CSS, Flask, NumPy, Pandas, Matplotlib, scikit-learn

Databases: MySQL, Firebase

Tools & Technologies: VS Code, Git, GitHub, REST APIs

AI/ML: Generative AI, Machine Learning

Achievements

Smart India Hackathon 2025 Winner (Software Edition)

8-9 Dec 2025

- Developed GramLink, an AI-powered platform for SC-ST majority villages.
- Enabled data-driven planning through digital governance tools.

MumbaiHacks 2025 – Fintech Track Winner

28-29 Nov 2025

- Secured first place in the Fintech track among 3,500+ participants.
- Built a full-stack mobile and web app with Agentic AI for personal finance management.

Smart India Hackathon 2024 Winner (Software Edition)

11-12 Dec 2024

- Developed a platform for interdepartmental co-operation and resource management.
- Project showcased at IIT Gandhinagar.

Education

Vivekanand Education Society's Institute of Technology

Chembur, Mumbai March 2026

Bachelor of Engineering in Information Technology; CGPA: 9.62 (till Sem 6)

Jaipuria School CBSE

Sanpada, Navi Mumbai March 2022

XII (HSC); 85.00%

Projects

SAHKAAR SETU ([Demo-link](#))

- Smart India Hackathon 2024 project designed to revolutionize urban governance by enabling centralized data sharing and AI-powered task management. It enhances interdepartmental coordination for better e planning, resource utilization, and project execution.
- Tech Stack: React, Vite, Tailwind CSS, Django, Node.js, Firebase, Llama LLM model, Leaflet.js, Framer Motion.

WASTE WISE WEB ([Github-link](#))

- A web-based waste management platform that helps users find proper waste disposal methods, report dump sites, and access sustainability guides. Features include geo-tagged bin locations, waste statistics, and cleaning campaign requests.
- Tech Stack: React, Vite, Tailwind CSS, Firebase, Firestore, Google Maps API, Chart.js, Cloudinary.

RESEARCH MATE ([Github-link](#))

- An AI-driven research assistant that streamlines academic research with instant AI chatbot support, mentor connections, and real-time collaboration tools. It provides IEEE paper formatting, plagiarism checks, and smart writing suggestions.
- Tech Stack: FastAPI, Firebase/Auth, Tailwind CSS, BERT Sentence Transformer, FAISS (Facebook AI), LLaMA, ReportLab, WebSockets, GitHub/Kaggle APIs.

Additional

Languages: Fluent in English, Hindi, and Marathi.

Soft-skills: Good Public speaking skills, Creative thinking, Teamwork, Problem-solving and Time management.
